

MAXX Into Alk2

ALKALINE SANITARY CLEANER

Performance

- Easily removes soap residues, skin fat and soil
- Ideal for all acid sensitive surfaces in sanitary areas e.g. marble
- Leaves a light, fresh fragrance

Efficiency

- Effective in low concentration (from 0,2%) to reduce cleaning costs

Safety

- Material friendly formulation allows for use on most water resistant hard surfaces
- Colour-coded system to ensure the use of the right product for the right cleaning task

DE/020/265

Sustainability

- Highly concentrated formulas reducing shipping weights.

Recommended Customer Areas

- For all washable surfaces in sanitary areas, especially suitable for marble and terrazzo.

Use Instruction:

1. Check hygiene plan for detailed use information.
2. Dilute 8 - 40 ml of MAXX Into Alk2 with 4 L water. Use undiluted on stubborn soiling.
3. Apply the cleaning solution onto a microfibre cleaning cloth or sponge. Wipe the surface. We recommend using MAXX Into Alk2 in combination with colourcoded Polifix microfibre cloths to avoid cross contamination.
4. Rinse with water or wipe with a clean damp cloth.
5. For manual floor cleaning we recommend the product in combination with Ecolab microfibre mopping systems.

SPECIAL NOTES / INFORMATION:

Only a small quantity of the product is needed compared to normal products. Proper dosage saves costs and minimizes environmental impact.

Test material compatibility in a small inconspicuous area before use.

Position warning signs 'Attention wet floor' and leave in place until surface is totally dry.

For professional use only!

Safety Data Sheet for professional users available on request.

Do not mix with any other product. Keep out of reach of children.

STORAGE CONDITIONS:

Recommended storage temperature between 0 °C and 40 °C.
