

# MAXX Into C2

## DAILY SANITARY CLEANER

### Performance

- Based on an innovative and powerful combination of acids and surfactants
- Effectively removes lime scale, urine-stone, soap residues, body fat and dirt

### Efficiency

- Good cleaning and de-liming capability
- Effective in low concentration (from 0,5%) to reduce cleaning costs

### Safety

- Material friendly formulation allows use on acid resistant surfaces
- Colour-coded system to ensure the use of the right product for the right cleaning task

## Sustainability

- Highly concentrated formulas reducing shipping weights.

## Recommended Customer Areas

- For maintenance cleaning of all acid proof surfaces and floors in bathrooms with hard water.

## Use Instruction:

1. Check hygiene plan for detailed use information.
2. Dilute 20 - 40 ml of MAXX Into C2 with 4 L water. Use undiluted on stubborn soiling.
3. Apply the cleaning solution onto a microfibre cleaning cloth or sponge. Wipe the surface. We recommend using MAXX Into C2 in combination with colourcoded Polifix microfibre cloths to avoid cross contamination.
4. Rinse with water or wipe with a clean damp cloth.
5. For manual floor cleaning we recommend the product in combination with Ecolab microfibre mopping systems.

## SPECIAL NOTES / INFORMATION:

Only a small quantity of the product is needed compared to normal products. Proper dosage saves costs and minimizes environmental impact.

Test material compatibility in a small inconspicuous area before use.

Position warning signs 'Attention wet floor' and leave in place until surface is totally dry.

### For professional use only!

Safety Data Sheet for professional users available on request.

Do not mix with any other product. Keep out of reach of children.

## STORAGE CONDITIONS:

Recommended storage temperature between 0 °C and 40 °C.

### pH value (100%)
