

MAXX Magic2

SUPER WETTING MULTI PURPOSE CLEANER

Performance

- High performance product for multiple cleaning application areas, including industrial
- Excellent material compatibility prevents damage to surfaces
- Removes dirt and grease quickly

Efficiency

- Effective in low concentration (from 0,25%) to reduce cleaning costs
- Increases intervals between maintenance cleaning and offers outstanding cleaning results, especially on porous surfaces like unglazed tiles in high traffic areas
- Low foaming for manual and machine cleaning

Safety

- Material friendly formulation allows use on most water resistant hard surfaces
- Colour-coded system to ensure the use of the right product for the right cleaning task

Certified according to DIN 18032*

* For sport halls to improve slip resistance

DE/020/262

Super Wetting Technology

- MAXX Magic2 has a super wetting capability and is well suited for highly water repellent or porous surfaces.

Wetting with 'classic' cleaning products

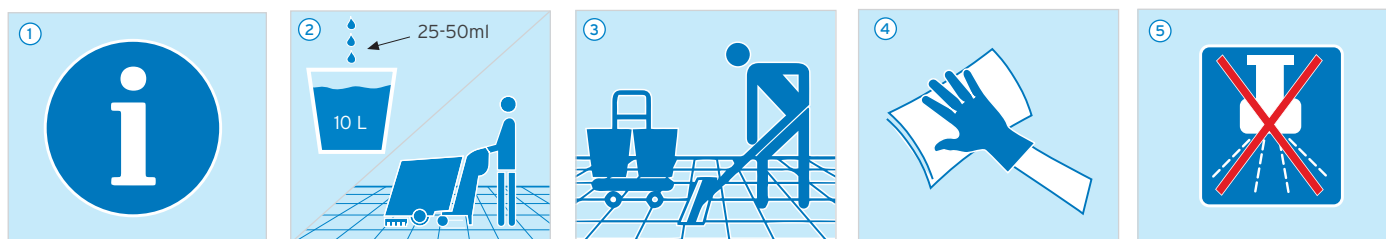

Super wetting effect

Recommended Customer Areas

- Daily office cleaning, industry, public buildings, hospitals, schools, sports halls, shopping centers, etc.

Use Instruction:

- Check hygiene plan for detailed use information.
- Prepare the cleaning solution in a bucket or in the scrubber-dryer fresh water tank. Use 25-50 ml of MAXX Magic2 for 10 L water. Increase concentration for stubborn or persistent dirt.
- For manual floor cleaning we recommend the product in combination with Ecolab microfiber mopping systems.
- For surface cleaning, use MAXX Magic2 cleaning solution in combination with colour-coded Polifix microfibre cloths to avoid cross-contamination.
- No rinsing required.

SPECIAL NOTES / INFORMATION:

Only a small quantity of the product is needed compared to normal products. Proper dosage saves costs and minimizes environmental impact.

Test material compatibility in a small inconspicuous area before use.

Position warning signs 'Attention wet floor' and leave in place until surface is totally dry.

Miscibility Certificates available for selected Ecolab disinfection products.

For professional use only!

Safety Data Sheet for professional users available on request.

Do not mix with any other product. Keep out of reach of children.

STORAGE CONDITIONS:

Recommended storage temperature between 0 °C and 40 °C.
